

BOTOX® COSMETIC POST-OPERATIVE INSTRUCTIONS

- BOTOX® is a protein that when injected, causes the muscle to relax, creating less lines and wrinkles.
- BOTOX® treatments are quick and easy with no downtime.
- BOTOX® takes 14 days for full correction. However, you will begin to notice a difference in approximately 3-5 days with results improving daily.
- Do not lie down, massage or touch areas where BOTOX® was injected for approximately 4 hours after treatment.
- BOTOX® is not permanent and generally will last approximately 3-4 months.
