

BOTOX® THERAPEUTIC POST-OPERATIVE INSTRUCTIONS

- BOTOX® is a protein that when injected causes the muscle to relax.
- Do not lie down, massage or touch areas where BOTOX® was injected for approximately 4 hours after treatment.
- If you suffer from headaches, you may experience the following:
 - It could take up to 10 days to feel a difference and reduction of discomfort or concern.
 - It is common to experience a slight headache for a few days as a result of the injections and BOTOX®
 - You will notice either a lack of headaches or a reduction in the intensity and amplitude of the headaches
- BOTOX® is not permanent and generally will last approximately 3-4 months.
